

FLEET iQ

MITSUBISHI MOTORS FLEET iQ

**MODERN-DAY INTELLIGENCE
FOR YOUR FLEET OPERATIONS**

What is Mitsubishi Motors Fleet iQ?

Mitsubishi Motors Fleet iQ is a web-based fleet management solution that provides critical insights on your fleet operations. It equips fleet owners and managers with access to key information in real time (and historically) by collecting and analysing all vehicle data in the field, including driver behaviour, fuel efficiency and engine health. This helps to identify areas of improvement and opportunity through a variety of reports on your fleet activity.
